

I was able to try the Cap Tel at the SHHH Convention in June and was in awe at how well it worked. I would recommend this to anyone who has difficulty using the phone. I cannot wait until it is available in Texas. I have a cochlear Implant and I use Voice Carry Over with the Texas Relay System. The Cap Tel phone is so natural. It is just as if I am a hearing person again. Please, this phone system needs to be available in all the states.

Ettalois Johnson, Director
Texas SHHH State Office
